

# The Miami Valley Round Dance Club

August 28, 1979

TO: Miami Valley Dance Council  
FROM: The Miami Valley Round Dance Club Council

It is the opinion of The Miami Valley Round Dance Club Council that the money collected through the 25¢ per dancer assessment should either be returned to the Clubs or used for the refurbishing of the existing Pavilion. Only after these funds have been exhausted, should the Council seek additional funds from the Clubs.

This quarter assessment was put into effect prematurely, and it is our feeling that future tariffs assessed should be done only after concrete plans for the new Pavilion have been solidified.

With the cost of labor and material skyrocketing, this money should be used for the immediate needs of the existing Pavilion -- not "stashed" away for a long period of time only to realize at some later date that the renovations we want to make are then beyond our reach.

This money was given by today's dancers and, therefore, today's dancers should be the ones to enjoy its benefits.

Sincerely,

THE MIAMI VALLEY ROUND DANCE CLUB COUNCIL

Paul Olund  
President
