

February 17, 1991

Dear Fellow Executive Committee Members;

We became very upset Saturday, February 9, 1991 after helping count the votes for Honor Couple.

Although most of the committee worked very diligently to fairly evaluate each and every candidate, a very small minority chose to either greatly slant their vote or vote for only one (1) couple.

This practice has taken the selection process out of the hands of this committee and into the hands of two or three individuals. I think the Honor Couple selection is a great tradition and I do not want to see this tradition tarnished with rumors and innuendo.

Bob Peyton has called for an executive committee meeting on this issue. The discussion will be held at the next committee meeting or you will be notified by mail if a special meeting is called.
