Dayton, OH 45405

Dear David,

This letter concerns the lack of lighting at the Michael Solomon Pavilion parking lot. I would like to request that you do what you can about having lights installed. I feel that the lack of lighting causes a potential danger for all club members who leave after dark, and I would like to see something done before that potential is realized.

Many of our members are elderly and/or female, and the dangers posed by the lack of lighting (tripping and falling, being criminally accosted, vandalism, etc.) will only increase when winter arrives. In particular, it will get dark sooner, conditions will become more hazardous, etc.

It would be extremely unfortunate if a tragedy had to occur before the installation of lights was deemed wise!

Thank you for your consideration of this matter.

Yours sincerely,

Harry Khamis
