David and Susan Decker
President Miami Valley Dance Council
Dear David and Susan,

My wife and I started Square Dancing in the fifties. We held offices in the S'Allemande Club in the sixties. We dropped out of dancing in the seventies. In the late eighties Jay Fitch recycled us. We have found since coming back not only have the calls changed but the people changed. Now there is a couple at the door to hug and welcome you. Back then all members were the welcoming committee. Now it is like, hug you at the door but don't get in my square. Many of the members distance themselves from you.

Now they have Raids. Then we traveled to other Clubs just because we wanted to go. We made friends with members of other Clubs and they came to dance with us. Now when the Clubs raid, they stay together, dance together and even look alike.

We bring this to your attention because the Caller is still in control. He can call mixers, which usually prove out to be the best dances. This breaks up the clicks and helps every one have a good time.

Yours today for fewer clicks tomorrow,

Roger and Connie Wolf
